

## Expectations for Outdoor Program Participants

The Outdoor Program believes that students grow and accomplish most when given true responsibility. We expect students to be responsible for all aspects of their participation (e.g. safety, gear, meeting attendance) on outdoor trips. See below for more specifics:

- Attendance at information sessions prior to trips (schedule To Be Determined and announced on pre-trip form)
- Attendance at specially scheduled training sessions for particular trips; these sessions are rare and are scheduled as needed around student schedules.
- Participation in trips offered on weekends as described above
- Payment of trip fees designed to cover the cost of transportation and campground fees where appropriate. The fee will usually range from \$20.00 to \$50.00 per trip, with the average around \$30.00. Financial assistance is available through the experience fund.
- Agreement to abide by the school guidelines and policies for school functions and activities, as set forth in the student handbook.
- Preparation for each outing in terms of needed equipment, food, resources as explained in the information sheet for each trip.
